TABLE OF CONTENTS

AEROSPACE

Selected Acquisitions Information and Management System (SAIMS)
Major Robert R. Kemps 3

Progress In Controlling Management Systems In DOD
David H. Moran 9

Management By Emphasis
Alan Scharf 11

C/STAR-An Application Of C/SCSC In The Computer Industry
A. G. Wald 17

COMPUTER AND INFORMATION SYSTEMS

Managing People And Machines Through A Total Systems Approach
Eugene J. Amitrani 33

Developing And Implementing A Computerized Maintenance Control System
Merle N. Mielke 37

A Survey Of Basic Industrial Engineering Computer Applications
Hamed Kamel Eldin and John W. Wood, Jr. 55

Application Of Classical Industrial Engineering Techniques To The EDP Center
Stephen W. Wuchina 67

ENGINEERING ECONOMY

Stochastic Variations Of Commonly Used Discounted Cash Flow Formulae
Arnold Reisman and A. K. Rao 83

The Criteria For Selecting Proposals
George A. Taylor 109

FACILITIES PLANNING AND DESIGN

A Quantified Model For Facility Site Selection-Application To A Multi-Plant Location Problem
Phillip A. Brown and David F. Gibson 119

Use Of The Computer In Warehouse Layout And Space Planning
E. D. Kooy and D. L. Peterson 131

Computer Programs For Architects and Layout Planners
Kaiman Lee 139

A Generalized Assignment Approach To Facility Layout
Alfred J. Mallette and Richard L. Francis 149

GOVERNMENT

Industrial Engineering Applications Of Educational Systems*
David I. Cleland 157

A Systems Analysis Of Technology Transfer
Lester A. Digman, Ph. D. 165

XUM

System Optimization And The Role Of Government In Managing Water Quality And Quantity
Chia Shun Shih, W. L. Meier, Jr. and D. T. Phillips 171

GRAPHIC ARTS

Waste Reduction And Control: A Step Toward Profit Improvement
Eliot S. Elfner 183

Skid Row Automated
Richard L. Hill and Robert H. Harrington 189

Bundle Handling System For Inserted Products
Jack E. Lane 195

HOSPITAL AND HEALTH SERVICES

A Generalized Methodology For Evaluating Hospital Distribution Systems
Gerald L. Delon 205

Radiology Scheduling System
Robert O. Harvey 219

Forms Design In Medical Information Retrieval
Herbert R. Ludwig 229

INDUSTRIAL AND LABOR RELATIONS

Participative Management Is Good Engineering
Sidney P. Rubinstein 243

Some Problems In The Arbitration Of Industrial Engineering Issues
Ronald L. Wiggins 249

MANAGEMENT

Industrial Engineering In The Year 2000
James H. Duncan (Deceased) 259

Improvement Need Perception In Industry
Philip A. Reed and Robert N. Lehrer 265

Problem Solving
Dale M. Smith 273

OPERATIONS RESEARCH

A Method Of Optimum WATS Line Selection
J. K. Klitz and A. W. Mecklenburg 285

Applications Of Production Functions In Long Range Planning
P. T. Lele and J. W. O'Leary 295

Distribution Of Beer in Eastern United States
Benjamin Lev 305

PRODUCTION PLANNING AND CONTROL

The Sensitivity To Period Length of Multi-Period, No Set-up, Stochastic Inventory Policies
B. L. Foote 311

Stochastic Capacity Decision Models For Production Facilities
Douglas C. Montgomery 315

ESP: Economic Scheduling Path—A Network-Based Resource Management Tool For Repetitive Projects
James L. Riggs and Michael S. Inoue 321

Composite Sensitivity Analysis In Inventory Control
John A. White 331

QUALITY CONTROL AND RELIABILITY ENGINEERING

Two Cost Models For Economic Design Of An $\overline{X}$ Chart
Kenneth R. Baker 337

Quality Assurance As Part Of An Integrated Production Information System
Larry D. Baldwin and Don Q. Matthews 345

Target Optimization Control Automatic On-Line Control Of A Process To Maximize Profits
Albert B. Bishop and John F. Donoghue 351

The Use Of Reliability Concepts For The Development Of Complex Equipment: A Methodology
Turgut M. Ozan 359

RESEARCH AND DEVELOPMENT

Sequencing And Scheduling Via Disjunctive Graphs
Horace W. Heck and Stephen D. Roberts 369

SEWN PRODUCTS

Contributions To The I.E. Profession By The Tailored Clothing Industry
Frank Di Giovanni 381

Apparel: The New Challenge For The Industrial Engineer
Samuel Gorell 389

TRANSPORTATION AND DISTRIBUTION

Automatic Freight Rate Estimation
C. Ray Asfahl 399

Transportation Noise: Problems, Prospects, Recommendations
Kenneth E. Case and Gerald G. Ventre 407

Applications Of Advanced Industrial Engineering In A Warehouse Sizing
Robert T. Spaziano 417

A Systems Approach To Early Improvement In Urban Transportation
Stewart F. Taylor 425

VALUE ENGINEERING

Organization Resistance To Value Engineering
Walter M. Bayne 433

Profitable Value Engineering Thru V.E.C.P.'s
W. T. Howell and T. C. Connor 437

XUM

WORK MEASUREMENT AND METHODS ENGINEERING

Using Multiple Linear Regression In The Analysis Of Indirect Labor Work Measurement Data
Tom Barta 449

MODAPTS—A Predetermined Time System That Can Be Memorized
Bertram A. Colbert and Gerald N. Griffith 453

Physiological Learning Curves For The Establishment Of Work Standards: An Exploratory Study
Gavriel Salvendy and John Pilitsis 459

Recent Advances in Computer-Aided Work Measurement
Douglas M. Towne 467

GENERAL SESSIONS

The Strong Interest Test and Other Factors Influencing Selection Of Industrial Engineering As A Career Choice
James W. Barany and William K. Lebold 479

The Generalized Newsboy Problem, Contract Negotiations and Secondary Vendors
Irwin W. Kabak and Charles B. Weinberg 489

An I.E. Looks At The Production Side Of Market Research
James E. Turney, Jr. 493

INTERNATIONAL SYMPOSIUM

The Concept Of Productivity Science
Dr. Joseph E. Faraday 499

TECHNICAL WORKSHOPS

A Model For Evaluating Changes In A Public Bus Transportation System
Herbert A. Lewis and Robert E. Shannon 511

So You Want To Be A Consultant
Phil Carroll 519

Toward A National Growth Policy
William Shaker 527
